Our Partners

What is NCOP?

The National Collaborative Outreach Programme brings together 29 partnerships of universities, FE colleges and other local partners to deliver outreach programmes to young people aged 13-19. The programme started in January 2017, and its aim is to double the proportion of young people from disadvantaged backgrounds in higher education by 2020, increase by 20% the number of students in higher education from ethnic minority groups, and address the under-representation of young men from disadvantaged backgrounds in higher education.

ABOUT US

Next Steps South West (NSSW) is a collaboration of fourteen partner universities and colleges throughout Cornwall, Devon and Somerset, funded by the Office for Students (OfS).

As the region's National Collaborative Outreach Programme (NCOP), we help young people navigate their own personalised journey to higher education (HE). Throughout the region, we hold events and activities designed to inspire students aged 13-19 years old to fulfil their potential.

We aim to build aspirations, awareness and access to HE, helping target students make an informed decision about their future.

For more information on NCOP visit

Outreach Programme**

**Hello, we're
Next Steps South West.
We offer impartial
information and support
to young people to
ensure everyone has a
fair shot at finding their
future at university
or college.**

Your choice

This booklet was designed with you in mind. Consider it your one-stop-shop for course information, condensing the vast array of local study programmes into one neat and tidy guide. Put down the bulky prospectus and pick up a pen - it's time to focus on you!

Not knowing where to start can feel like a hurdle, but there's no need to worry. Flick through this booklet and you will discover clear and concise course listings from our fourteen partner institutions, with handy tariff guides and entry requirements, plus short activities to help you narrow your interests.

We've also created rookie guides to choosing a course, writing an application and visiting open days. If you come across any technical terms that you haven't seen before, refer to the Glossary of Terms at the back of the guide.

Are you ready? Let's go!

Entry requirements

Throughout the Course Directory you will notice most entry requirements are noted as Level 3 – 5 qualifications, but other types of qualifications may be accepted. For a full list of entry requirements (including GCSEs, A-Levels and additional requirements such as portfolios and practical experience) please refer to the institution's website or contact their admissions team. For a full list of partner details visit  [nextstepssw.ac.uk](https://www.nextstepssw.ac.uk).

CHOOSING A COURSE

The UK is home to over 50,000 undergraduate courses at more than 395 learning providers, so research is key.

You might feel spoilt for choice or maybe a little overwhelmed, but with some simple steps you'll soon be able to identify the study programme that is right for you. Follow the steps below to get started:

Step 1

Think about the subjects you enjoy, could any of them lead to a long-term career goal? Perhaps you have a knack for numbers or look forward to creative projects? Studying at university or college is a chance to specialise in a subject you love.

Step 2

Explore our website's 'Find Your Career' page at [nextstepsw.ac.uk/plan-your-future/find-your-career/](https://www.nextstepsw.ac.uk/plan-your-future/find-your-career/)

to see which career paths each subject area feeds into - including graduate destinations, entry requirements, and personal statement tips.

Step 3

Browse this course directory or check out the online version at [nextstepsw.ac.uk/courses](https://www.nextstepsw.ac.uk/courses) where you can apply filters to narrow your search.

When researching a university or college there are other factors to consider that will ensure your student experience is unforgettable - for the right reasons. Many institutions will offer the same (or similar sounding) courses, but the content, teaching style, and methods of assessment may differ.

Take a moment to read through the factors below and consider your personal preferences. You might like to underline the criteria that matter most to you for revisiting later.

Modules

- Break the course content down into each module. Is everything you are interested in covered?
- Are the modules well-paced for your learning style?
- Do any of the modules repeat content you've studied before? Would you find this tedious or enjoy the advantage?

Entry requirements

- These may differ from one institution to another.
- Are you confident you will get the qualifications needed?
- Do you need to submit any supporting work? (e.g. a creative portfolio or evidence of practical work experience)

Type of assessment

- Some courses may put more emphasis on exams, others on coursework or practical assessments. What is your preferred learning style?

Facilities

- What is the learning environment like? Maybe you prefer to be outdoors, or you might be excited to sit in a lecture theatre?
- Some subjects require specialist work spaces and equipment (e.g. artist studios, digital technology, science laboratories, and physical sports). Will you have access to cutting-edge facilities? Some places will have more than others, but always check if there are new building plans.

Contact hours

- How much contact time with academics and technicians will be available to you?
- Be honest with yourself: do you have the self-discipline to manage 'independent study' or would you benefit from structured timetabling?
- Perhaps you are applying for an apprenticeship? Compare the amount of contact time with the employer vs teaching staff – is the balance right for you?

Opportunities

- Does the course contain a sandwich year? For example, a work placement or international exchange in the middle of your studies.
- What industry contacts does the course promote? Consider what doors might be opened to you as one of their students.
- Do they encourage students to apply to any competitions or other activities?
- Where are they now? Visit the university or college's website and social media to hear alumni stories.

Top Tip!

There are several free online tools out there to help you explore courses. Visit [whatuni.com](https://www.whatuni.com) to see side-by-side comparisons and read student reviews.

YOUR VISIT

There is no better way to get a feel for life on campus than visiting in person. Open Days are an exciting opportunity for you (and your friends or family) to visit a university or college, and its surrounding area.

Meet friendly staff and student ambassadors, explore local accommodation, and above all – ask questions! An Open Day can make or break your decision, so it's important to use your time wisely and prepare some talking points.

We've noted some of our favorite questions below. Why not circle the ones you'd like to ask too?

If you have questions about a course, who can you ask and where would you find them?

Is the campus all in one place or spread across multiple sites?

Is the campus close to local amenities such as supermarkets and shopping centres?

What facilities do they offer students? (on-site GPs, bars and cafes, recreational sports clubs and gyms, libraries?)

Where is the Student Union, and what clubs and societies do they run?

What kind of accommodation is available? Often official accommodation providers will have stalls at Open or Applicant Days.

What internal support do students have access to? You never know what you might want to access in the future, so knowing what's available can put your mind at ease. Find out if there are dedicated teams to advise you on fees & funding, exam support, student welfare, study skills, careers, and more.

Where can you get IT support and is there a place to loan more equipment?

12

**Take £40 off
your next trip!**

Find out if you are eligible to receive a £40 Travel Card to put towards the cost of attending an Open Day, Applicant Day or Offer Holder Day by visiting

KEY DATES

Your journey to higher education will include some important milestones, and time will go surprisingly quick!

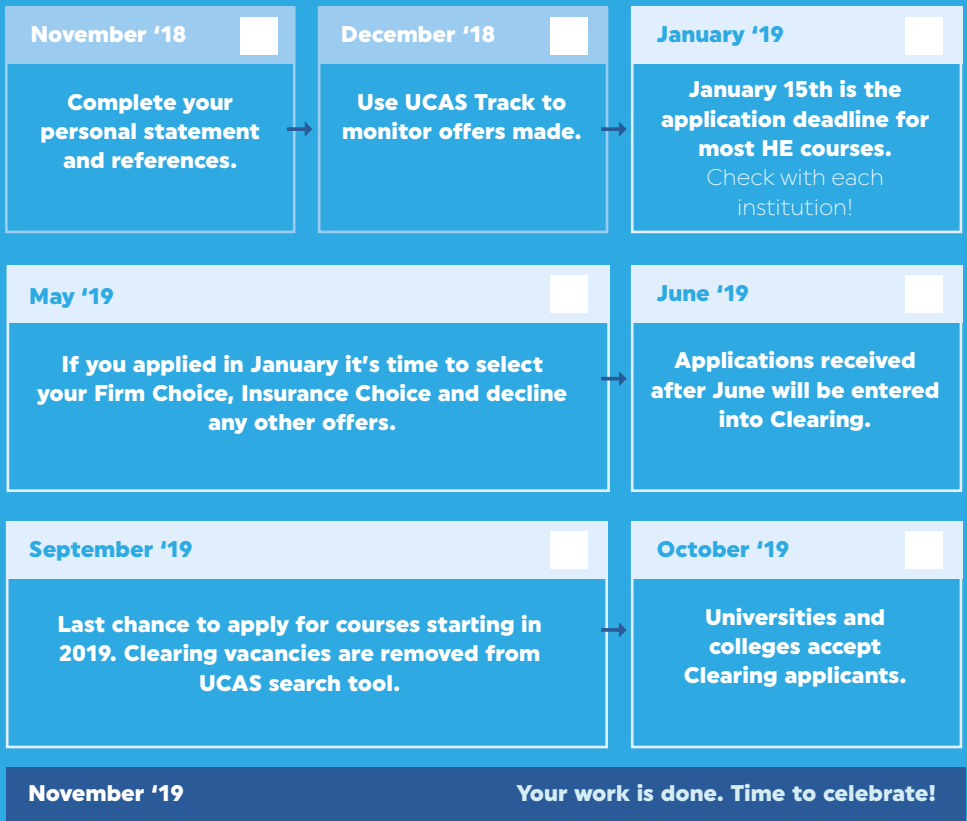

September 2018 - November 2019

UCAS Calender

With so much to remember it's helpful to plot a visual timeline. Working with your parent, carer or teacher read through the illustration below and regularly reflect on where you should be in the application process each month. When you have completed a step, tick the box to mark it complete.

Visit nextstepsw.ac.uk for a regularly updated list of Open Day dates at our partner institutions. Alternatively you can view nationwide event listings at opendays.com

UCAS TARIFF

UCAS Tariff points are allocated to qualifications generally studied between the ages of 16 to 19.

Some universities and colleges use UCAS points in their entry requirements, so you may need to calculate how many points your qualifications are worth. Use the guide below to see how your grades measure up.

Tariff Points	AS Level	A Level	BTEC
56		A*	D*
48		A	D
40		B	
32		C	M
28			
24		D	
20	A		
16	B	E	P
12	C		
10	D		
8			
6	E		

Work out how many points your qualifications are worth at

 ucas.com/ucas/tariff-calculator

COURSE LISTINGS

The following pages contain a comprehensive list of all HE routes throughout the South West of England.

They are ordered alphabetically so that you can jump straight to the subjects you like. Start building your shortlist by highlighting the courses that catch your interest.

Applying for an Apprenticeship?

Higher and Degree Apprenticeships allow you to learn on the job whilst still gaining a HE qualification. Applications are made via the employer, and vacancies are published year-round so it's best to make contact with the employer directly.

GLOSSARY

Jargon, lingo, mumbo jumbo!

You'll notice a lot of new terminology used to describe HE courses, so never be afraid to ask what a word means.

While researching the course listings, you might find the descriptions below helpful. If a term you are looking for isn't listed, visit gostudyuk.com/glossary.jsp

Term	Definition
BA/BSC	Bachelor of Arts/Science degrees
BEd/BEng	Bachelor of Education/Engineering degrees
BM/BS	Bachelor of Medicine, Bachelor of Surgery
Clearing	A second-chance process for higher education applicants who did not receive offers, declined their offers or did not meet entry requirements.
College	An institution that provides post-16 further education (FE) and sometimes higher education (HE) too.
Degree	A qualification combining a degree from a HEI and work experience from an employer.
Apprenticeship	Applications do not have to go through UCAS.
Entry Requirements	What an applicant needs to have to get onto their HE course of choice. This may include qualifications, subject specialisms, interviews, portfolio reviews, admission tests, and more.
Extended Degree	A four-year bachelor's degree that includes a foundation or preliminary year.
FdA/FdSC	Foundation Degree Arts/Foundation Degree Science
FD	Combines academic and vocational skills in a higher education course. Equivalent of two years of a bachelor's degree.
Foundation Year	Also known as 'Year 0': a one-year preparation course for students who may not have gained entry requirements to go straight onto a degree, or want to explore a variety of disciplines before committing.
HEI	Higher Education Institution, usually a university or college.
Higher Apprenticeship	A Level 4 qualification or above, combining on-the-job training with an academic programme.

Higher Education (HE)	An optional stage of learning beyond secondary level, usually offered by universities and colleges. You can apply for this level of education once you have completed A-levels,
Higher National Certificate (HNC)	A vocational higher education qualification, that takes one year to complete. It's roughly equivalent to one year of university study.
HNC/HND	A vocational higher education qualification. Completion of a Higher National Diploma or Higher National Certificate is considered equivalent to the second year of a three-year degree and can often be used to gain entry to a university course.
MSci/MEng/ MGeol/MMath/ MPhys	Degrees that incorporate an additional year for a Master's qualification
LLB	Bachelor of Laws (<i>Latin Legum Baccalaureus</i>)
Personal Statement	A piece of text applicants write to demonstrate their suitability for a study programme.
Postgraduate	The next level of study after higher education for those who have completed their undergraduate degree. You cannot apply for this until you've completed an undergraduate course.
Top-up	Equivalent to the final year of undergraduate study. These courses enable you to build on an existing qualification, to gain a bachelor's level qualification.
UCAS	Universities and Colleges Admissions Service. The organisation that will process your application to higher education.
UCAS Track	The name of the online tracking system where you can check your application's progress, reply to offers, and make Clearing choices.
Undergraduate	The first level of study in higher education such as Degrees, Higher National Diplomas, and Foundation Degrees.
Undergraduate Degree	Also known as a bachelor's degree: a three or four year higher education course. Most are presented as a Bachelor of Arts (BA), a Bachelor of Science (BSc), or a Bachelor of Education (BEd).
University	An institution that only provides higher education (i.e. undergraduate and postgraduate).
