

KS5 UCAS Application Sessions August 2020 - July 2022

The UCAS Applications activity is designed to inform students about the UCAS online platform and improve understanding of the UCAS application process.

Engagement

No. of students	800
No. of schools/colleges	15
No. of survey responses	228

After taking part in this activity **90%** of students agreed that they knew how to find out about course and study options for the future.

88% of students felt more confident about applying to study an HE course through UCAS.

91% of students said they had increased their understanding of UCAS, the HE applications process and personal statements, as a result of this session.

Today I have learnt...

- The website is easy to use.
- The process of applying and accepting courses.
- You need to make a personal statement to put on the application.
- You receive UCAS points from your qualifications that will determine what courses you are eligible for.

The evidence demonstrates that the UCAS Applications activity has made a considerable impact on the students' understanding of UCAS and the HE courses available, and on their confidence in being able to make an HE course application.
